PROFILE

To perform as a student of Computer Science Engineering in order to apply all the skills, abilities and professional knowledge acquired. Contribute to the success of the institution and seek my improvement day by day.

I have a Bachelor's Degree in Computer Science and I am a third year student of Computer Science and Information Technology Engineering at the Universidad del Valle de Guatemala (UVG).

I characterize myself as a fast learner, organized, responsible, reliable, with initiative, perseverant, and with great motivation for the work I do.

Distinguished Alumni at Universidad del Valle (2022)

WORK EXPERIENCE

IGSS -
Developer Full Stack Jr

2024 (JANUARY) - 2024(JUNE)

- Development and integration of the document upload section for the Human Resources system, using Angular for the front end where HTML, CSS, JavaScript, use of .NET with C# for the backend, use of as400 for data management.

- Development and integration of the Document Review section for the Human Resources system by the analyst, using the aforementioned tools.

- Redesign of the website to improve navigation and visual appeal.

- Development of RESTful APIs using .NET and C#, design and maintenance of backend services architecture. API documentation with Swagger to improve clarity and ease of use.

- Integration of validations for user input.
